MIDDLE EAST

**Media
Information
2025**

Introduction

SatellitePro Middle East addresses all aspects of the satellite industry, covering the key vertical markets including Broadcast, Telco, Maritime, Government & Military, Oil & Gas, Aviation and Enterprise

Experts discuss the paramount issues within the industry, from interference and regulation to standards and market breakthroughs. Satellite technology has been at the centre of innovation in content distribution for decades.

Our target audience includes satellite operators, telco professionals, oil and gas chiefs and maritime players. It also caters to systems integrators, distributors and manufacturers, looking to further expand into the Middle East.

SatellitePro ME also honours the satellite industry via multiple channels, print, digital and face to face events as well as awarding the key players of the sector at the ever-successful annual Summit & Awards, universally seen as the definitive event of its kind in the GCC.

Digital Advertising Email

EDM (Email Direct Marketing), commonly known as email blast is one of the most popular methods to promote products and services online and the biggest advantage is its speed and reach. We provide a service for advertisers to send your message directly to our opt in subscriber database. We also provide all the EDM metrics post campaign.

Lead Generation
Same as an EDM but include a data collection option where the reader can fill in their details to receive more information. Normally these are done as a survey, competition, promotion, – offering the reader an incentive to part with their details.

Events

Live

From roundtables to large scale conferences to awards ceremonies

Our events are noted to be among the leaders in their respective industries. Attended by key people with agendas linked to on trend topics produced in an easy to digest format. Not only will you reach your target audience and influencers in one place, but you can also leverage the different options on offer. Be it in the form of speaking opportunities, live demonstrations, exhibiting, branding and more, our events offer numerous thought leadership routes to market.

Event marketing is an important component of a successful marketing strategy. Whether your company is entering the market, or planning to launch a new product or service, our event programmes are the ideal platform to generate awareness and make an impact. Ranging from a variety of events from intimate roundtables to large scale conferences, awards ceremonies and industry sporting events, each providing a platform to help meet business marketing objectives.

Digital Events

Webinars

The growing popularity in webinars has presented many benefits and here are some of those.

Direct contact with your target group

Reach and engage a very specific target group. Allow them to ask questions or pose questions of your own to the participants. The interaction during a webinar gives you insight into your target group.

Reach your target group both live and afterwards

A webinar gives you the opportunity to continue to reach your target group when the broadcast is over, since each webinar can also be watched on-demand. This enables you to increase both the reach and the impact of your message.

Statistics

Webinars enable you to measure audience response and engagement rates. They also offer you the opportunity to know who attends and how they interact which offers you a more targeted and strategic route to market.

Cost effective reach

A webinar eliminates travel and expenses and offers a much wider reach. In 2020 our webinars had over 500 registrations per event ranging from all corners of the world.

Contact us if you would like to participate and sponsor a scheduled webinars event

May 2025

FOCUS

AI and Automation in Satellite Operations

With AI and automation taking centre stage, we explore the implications of these technologies in terms of enhanced efficiency and cost reduction.

Satellite Constellations for Global Connectivity and Possible Convergence

With companies deploying massive constellations of satellites, our investigation spans satellite manufacturing innovations, the evolution of launch services and the collaborative partnerships shaping the landscape of space-based global connectivity.

EVENT

CABSAT 2025

September 2025

FOCUS

Advanced Satellite Communication Technologies

Exploring high-throughput satellites, optical communication breakthroughs, and seamless data relay systems as well as the B2B opportunities available to capitalise on the next wave of connectivity innovations.

Small Satellites and Cubesats:

A look at the burgeoning realm of small satellites and cubesats, uncovering their roles in diverse arenas such as cost-effective manufacturing, efficient launch services, and cutting-edge data analytics.

EVENT

IBC SHOW

Calendar

May - Sept 2025

TOPICS AND VERTICALS THAT WILL BE COVERED IN SATELLITEPRO 2025

- Remote Sensing for Exploration in Oil & Gas - The use of satellite imagery and remote sensing to identify potential oil and gas reserves and optimise exploration efforts
- AIS in Maritime: Enhancing maritime safety and security through satellite-based AIS for real-time vessel tracking, collision avoidance and traffic monitoring
- Military Satellite Communication systems - Ensuring the security of military communications through advanced satellite encryption
- The teleport sector - Addressing new market trends and demands with new technologies and services
- From the Ground up - Developing low-cost ground infrastructure and optimising ground operations
- Climate Change Monitoring - How satellite data helps monitor and analyse the impacts of climate change, including changes in ice caps, deforestation and sea level rise
